**Great teams
don't need to be a
happy accident!**

**A team that's
focused on learning
and growing gives
and receives
constructive
positive feedback**

WHEN TO DO A FEEDBACK SESSION?

Plan and book feedback sessions in advance so that they are a natural part of the project.

Hold a session every 2-3 weeks throughout a project, or when the team needs a boost. Short versions can be incorporated into standard meetings.

HOW?

Take some minutes and write down your feedback.

Give the feedback to one member at a time.

Read it loud and hand it over to the person in question.

FEEDBACK TEMPLATES

We've provided you with four different feedback templates that will help you strengthen your team.

Pick one and see how your team grows!
